Md Abid Al Morshed | Computational Mechanics | Composite fracture

90637060749 abidalmorshed@gmail.com *abidalmorshed.github.io*

CORE COMPETENCIES

Mechanical Engineering PhD candidate with experience in **Abaqus FEA, structural simulation, and failure analysis**. Skilled in custom FEA implementation (**UEL/UMAT**), composite material modeling, and simulation-to-experiment comparison. Seeking an internship in **CAE, structural mechanics, or mechanical engineering R&D**.

EXPERIENCE

Graduate Research Assistant | Fall 2024–Present **Michigan Technological University**

- Developed a 3D phase-field model for composite fracture under static and dynamic loading.
- Implemented the formulation through custom Fortran user elements in Abaqus.

Graduate Teaching Assistant | Spring 2025 **Michigan Technological University**

- Led practical sessions in control engineering and HVAC analysis.
- Taught MATLAB/Simulink and Python for engineering modeling and data analysis.

EDUCATION

Michigan Technological University | GPA: 3.84 Expected graduation: Fall 2027

Ph.D. in Mechanical and Aerospace Engineering | Computational modeling of composite fracture

Bangladesh University of Engineering and Technology | GPA: 3.69 Graduated: May 2023

B.Sc. in Mechanical Engineering | Computational fluid mechanics and heat transfer

ENGINEERING PROFICIENCIES

Engineering analysis:	Nonlinear FEA, structural failure analysis, fracture mechanics, composite failure.
Software & Programming:	Abaqus (custom user elements: UEL/UMAT), Fortran, Python, MATLAB, Simulink, Linux.

HONORS AND PROFESSIONAL INVOLVEMENTS

Awards: College of Engineering Candidacy Incentive Award, Michigan Tech (2026); Dean's List and University Merit Scholarship, BUET (2017, 2018).

Conference Presentations: American Society for Composites (2026); Society of Engineering Science (2026).

Research Communication: Three-Minute Thesis, Michigan Tech (2025, 2026), ICC computing showcase (2026).

Mentoring & Community Service: Research Rotation Mentor, COE–REU Program (2026); Festival of Nations (2026); Keweenaw Land Trust trail cleanup (2025).

SELECTED PUBLICATONS

Journal Paper
